

AN IMPORTANT MESSAGE from the Hudson Family

Margaret Hudson,
President & CEO

As we all know, recent floods have been having a devastating impact in British Columbia and in particular Abbotsford and the Sumas Prairie where there are a number of BC egg farmers.

We at Island Eggs and Burnbrae Farms take very seriously our role in maintaining the distribution of quality eggs to British Columbia families. We have a long history of supplying Canadians with safe, nutritious, affordable eggs and egg products and doing so in a socially responsible manner.

We would like to assure you that our Island Eggs grading station is fully operational, but a number of highway closures have made the transportation of eggs from certain farms and to some stores more challenging. We are working very hard to ensure we continue to supply our Island Gold and Naturegg eggs to your local grocery retailer.

Most of our farmers have not been affected, but we have had a small number who have been directly impacted by this devastating event. We are working with them to bring their eggs back into the supply chain as quickly as possible.

Our dedicated employees at Island Eggs continue to demonstrate their passion for ensuring that eggs reach BC families. We are incredibly proud of our colleagues and would like to thank them for their dedication and efforts.

As a company we are working with local food banks to help families in need by providing safe nutritious eggs and we are directing our donations to The Canadian Red Cross, Floods & Extreme Weather Appeal to support local relief efforts. Our thoughts and prayers are with all those who have been impacted by these terrible events and our sincere thanks go out to the men and women who are working hard on all the relief efforts.
